

PROJECT REPORT

1.INTRODUCTION

1.1 OVERVIEW:

This project delves into the fascinating realm of business expenses and provides a visual exploration of the various expenditures incurred by different businesses. It showcases the distribution of expenses, identifies key cost drivers and highlights areas of potential optimization and concerns. The visual representations allow for intuitive analysis, facilitating a deeper understanding of expenditure patterns and their implications for business performance.

1.2 PURPOSE:

The purpose of this project is to extract insights from the data related to business expenses and present this data in the form

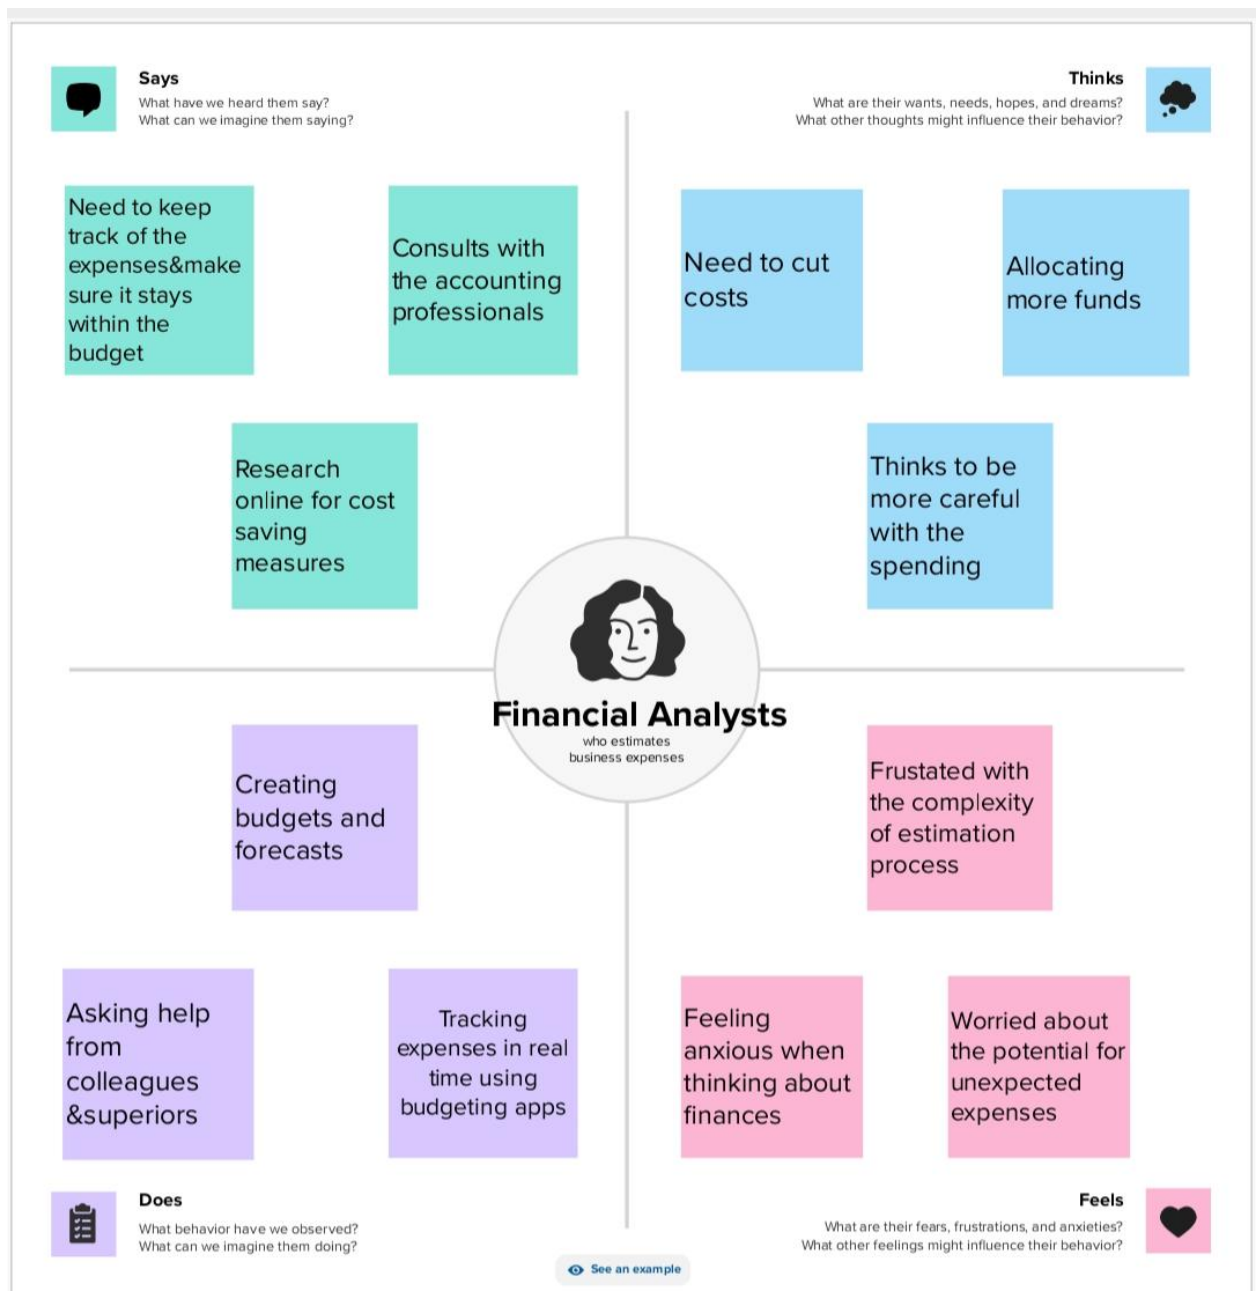

of visualizations,dashboards and a compelling narrative.Financial analysts and stakeholders gain valuable insights into the financial health of businesses, identities areas of inefficiency or opportunity, and make informed decisions to optimize resources and drive growth.

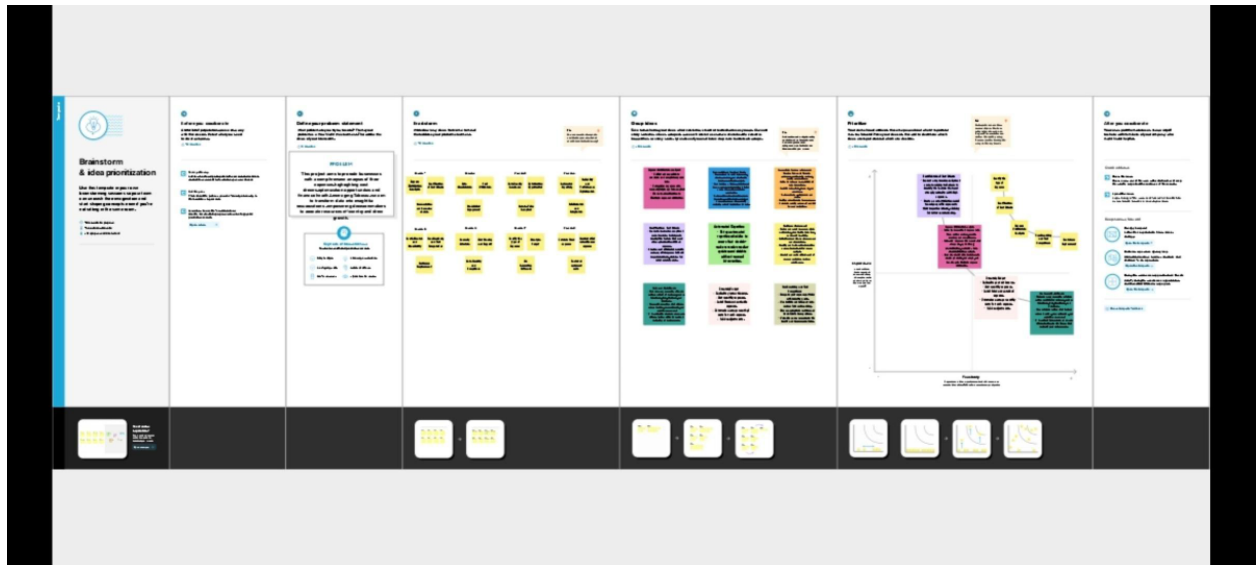

2.PROBLEM DEFINITION &DESIGN THINKING:

2.1 EMPATHY MAP:

2.2 IDEATION & BRAINSTORMING MAP:

3.RESULT:

We present the final findings and outputs of the project, including screenshots of visualizations and dashboards. This visual representations offer a clear view of business expenses, cost distribution and patterns.

4.ADVANTAGES & DISADVANTAGES:

4.1 ADVANTAGES:

Edit with WPS Office

- * In-depth analysis of business expenses
- * Enhanced decision making for financial optimization
- * Improved financial health of business
- * Data-driven insights for stakeholders

4.2 DISADVANTAGES:

- * Potential data privacy and security concerns
- * Initial investment in tools like tableau
- * Training requirements for effective use

5.APPLICATIONS:

This solution can be applied in the following areas:

- Financial analysis and decision making
- Identifying areas for cost optimization
- Improving resource allocation
- Enhancing overall business

performance

6.CONCLUSION:

In conclusion, this project has successfully explored and visualized business expenses, providing valuable insights for decision makers and stakeholders. The use of tableau as a tool has allowed for intuitive analysis and data-driven decision-making. While it offers many advantages, it also comes with some challenges, including data privacy and initial investment. However the benefits of improved financial health and resource optimization far outweigh these challenges.

7.FUTURE SCOPE:

Edit with WPS Office

The future scope of this project includes:

- Continuously updating and analysing expenses
- Integrating additional data source for richer insights
- Expanding the application of data-driven decision-making in various business aspects
